# SUMMER INTERNSHIP

DEVELOPING OUR FUTURE INNOVATORS

## SPONSORSHIP PACKET

INTERESTED IN HOSTING A STEMWORKS™ STUDENT?

Does your company need help with a special project or need? Are you able to mentor a high school or college student for six weeks?

Students skilled in programming, geospatial technologies, digital media, AutoCAD, programming and MUCH MORE are looking forward to using their technical talent to help your company or organization.

**REGISTER NOW TO HOST A STUDENT INTERN:**

<http://bit.ly/2xTir1K>

The STEMworks™ Summer Internship program was created by MEDB Women in Technology Project (WIT) to help develop the next generation of Hawaii STEM and Agriculture professionals. This six week program is an extension of STEMworks™, a multi-faceted hands-on program where students use cutting edge technologies to design solutions to community issues.
